One page summary of your cv, including:

- ❖ Your education and training
- ❖ Your major area's of interests, both professionally and privately
- ❖ Your expertise
- ❖ Your personal expectations for EUTRAIN

Education and training

- 09/2003 – 06/2007 **Bachelor in Biology**
Université Libre de Bruxelles (ULB)
Brussels, Belgium
- 09/2007 – 09/2009 **Master in Biochemistry, Cellular and Molecular Biology**
Université Libre de Bruxelles (ULB)
Brussels, Belgium
- 09/2009 – 12/2010 **Internship in**
Study of CD36 Expression on Monocytes after TNFalpha Treatment
Institut National de la Santé et de la Recherche Médicale
Davignon's lab (INSERM, U1043)
Toulouse, France
- 01/2011 – 02/2013 **PhD in Science**
Expression of Functional CaV1 Channels in Humun TH2 Lymphocytes
Institut National de la Santé et de la Recherche Médicale
Pelletier's lab (INSERM, U1043)
Toulouse, France
- 01/2013 – Present **Post doc position in Science**
Study of Foxp3 regulation and T reg function
P.J. Coffe's lab
Utrecht Medical Center
Utrecht, Netherland

Major area's of interests, both professionally and privately

Professionally: Immunology, Cell biology, Molecular biology, balance between effector T cells and regulatory T cells.

Privately: Piano, climbing, hiking, badminton, gardening, have fun with family and friends

Expertise

- Cellular culture
- Flow cytometry
- ELISA
- QPCR
- Cloning
- Western blot
- Confocal microscopy
- Calcium measurement by microscopy
- Animal experimentation
- Microsoft Office (Word, Excel, Powerpoint)
- Flow Jo, Diva
- Adobe Illustrator, Prism

Personal expectation for EUTRAIN

I hope with EUTRAIN to increase my knowledge in science and also to create some links between researcher like me and the medical part. I would like to be able at the end of this program to manage completely my own research and to know how to collaborate with doctors and private company. I think it is not possible to do a good job whether different points of view are not confronted with others.
