Syed Sohaib Ali is currently working as an Early Stage researcher on EUTRAIN project at Istituto Giannina Gaslini (IGG), Genova Italy. He did his Bachelors in Electronic Engineering in 2007. Since then he has been involved in various projects related to computer vision and image analysis. He completed his Masters in Electrical Engineering in 2012, with specialization in Image Analysis. He has been serving as a visiting faculty member of various universities in Pakistan. His interests lies in Image Analysis, Computer Vision, Remote Sensing and Fuzzy Logic. He has also presented his work in several peer reviewed conferences and journals.

My expectations for EUTRAIN:
I hope to bring recent advancements and research presented in the field of Image Analysis into practice. Along-with my fellow researchers at IGG, I hope and expect to develop procedures that will be helpful for physicians during the diagnosis and analysis of Juvenile Idiopathic Arthritis disease.
